AGENDA

Opening and Introductions	<i>Marvin Flannigan</i>
Existing Conditions Report Presentation	<i>Megan Will & Ken Bleakly</i>
Review of Agenda/Program for Development & Mobility Charette	<i>Megan Will</i>
Closing and Next Steps	<i>Megan Will</i>

Megan Will and Ken Bleakly presented the findings of the existing conditions analysis and market analysis. Ms. Will explained that a similar, although shortened version of the presentation would be provided at the upcoming Design and Mobility Charette.

Core Team members asked how the plans that came out of the Lifelong Communities Charette [DPZ Charette] would be incorporated into the LCI study. Ms. Will explained that this is still to be determined since the full DPZ study has not yet been published. When that report is made available it will be reviewed by the consultant team and recommendations will be made for incorporating it into the LCI study.

Megan Will went over the proposed agenda and activities for the Design and Mobility Charette on 4/2 and asked that the Core Team members make plans to attend the meeting and encourage their friends and neighbors in the city also make plans to attend.
